

GOTRUCKGO.CA
Your friend with a truck.

PRESSKIT

Backgrounder:

Gotruckgo.ca is a Vancouver based sole proprietorship that was started in early 2008 by owner-operator Sean Edwards. What began as a part-time hobby soon turned into a business opportunity with strong growth potential. There was such a healthy demand for delivery, moving and junk removal services that Sean found himself with a steadily increasing customer base and a growing number of customer referrals.

Summary of Services:

Gotruckgo.ca operates in the transportation industry as a provider of delivery, moving and rubbish removal or recycling services. Our business primarily comes from moving services, with the remainder of our business coming from rubbish removal and delivery service that is often related to a move. We want to be known as a company with a strong moral compass and we intend to build our company with an unwavering commitment to sustainability.

Delivery

Gotruckgo.ca handles local delivery of furniture or appliance items purchased in-store or online including: beds, tables, cabinets, couches and chairs, televisions, appliances, machinery or equipment. If we can fit it in our truck, we'll deliver it for you.

Moving

Our expertise is in one-bedroom condo moves in and around the Vancouver urban centre. We give customers an alternative to hiring a large truck when a small one will do. Customers can hire one or two movers depending on their budget. Consider us your good friend with a truck!

Rubbish Removal / Recycling

We remove clean household items and we also go above and beyond to recycle or donate all re-useable items where possible. Listed under Metro Vancouver's Recycling Hotline, we regularly help transport large items to their appropriate recycling facilities.

Service Area:

We serve all areas of the lower mainland but in the interest of keeping our business local during our start up phase, our focus is on Vancouver and the immediately surrounding areas.

OurPeople

Work Truck:

Make / Model: 1991 Isuzu Elf 150
Birthplace: Fujisawa, Kanagawa Prefecture, Japan

Cargo Capacity: Rated at 1.5 tonnes
Dimensions: 13 feet X 6.5 feet X 6 feet
Engine: 3.0 Litre 4 cylinder diesel
Transmission: 5-speed manual
Fuel consumption: 25 - 30 miles per gallon

With 1.5 tonnes of hauling ability, Izzy is truly our hardest working and most important team member. Chosen specifically for its great fuel economy, our truck has met our business needs beautifully.

Owner and Operator:

Name: Sean Arthur Garnette Edwards
Birthplace: Jakarta, Indonesia

Despite his musical and vocal shortcomings, Sean has found a great way to stay connected to his passion for music – by listening to good tunes in the truck while serving the transport needs of his customers!

Previously, Sean worked with his father's family business engineering and testing firefighting equipment to help combat forest fires in the interior of British Columbia. Continuing with this entrepreneurial spirit, it has been a dream come true for Sean to start his own company.

Marketing and Communications Manager:

Name: Jason Sew
Birthplace: Vancouver, Canada

Jason graduated from Simon Fraser University with a degree in Communications, a minor in Publishing and a Graduate Diploma in Business Administration.

He has a diverse range of experience from roles in communications, graphic design, web design, database administration and even commercial credit analysis! When he's not finding ways to build the business, he gets his exercise helping out with moves and deliveries.
